An Equal Opportunity Employer

Indiana's non-seasonally adjusted unemployment rate for June is 4.6 percent, one and nine tenths of a percentage point below the national rate of 6.5 percent, Alan D. Degner, Commissioner for the Indiana Department of Workforce Development, announced today. The number of Hoosiers employed during June 2003 was 3,088,200.

Indiana's June unemployment rate was lower than Illinois, 6.6 percent; Michigan, 7.4 percent; Ohio, 6.5 percent; and Kentucky at 5.9 percent.

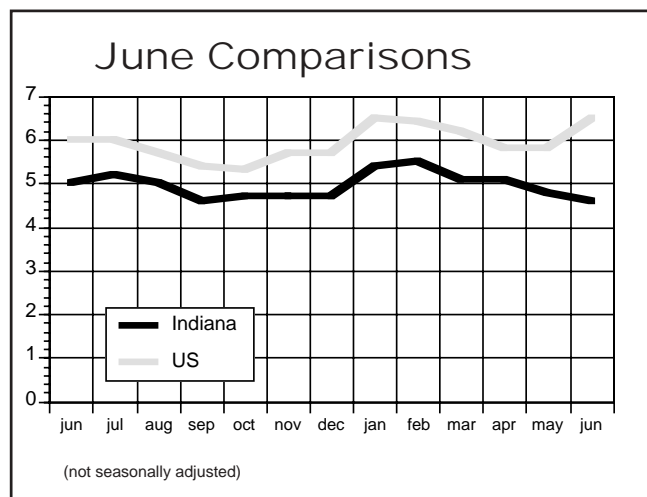

"Indiana's June decline in unemployment is welcome news for Hoosier workers and families. Job growth in construction and manufacturing was able to offset a decline in the service producing sector," commented Degner.

The monthly survey of 7,500 Hoosier employers reports payroll employment at 2,858,400 a decrease of 40,400 from one year ago and 31,900 less than last month. Payroll employment is an estimate of non-agricultural jobs in Indiana businesses. It differs from labor force employment which is used in the calculation of the unemployment rate by not including the self-employed and agricultural workers. In addition, payroll employment includes all those who work in Indiana, while the unemployment rate is calculated by those who live in Indiana.

Manufacturing employment totals 582,300 in June, a decrease of 12,600 from last year. Motor vehicle manufacturing accounts for 13,900 jobs, 2,000 more than one year ago. Manufacturing of motor vehicle parts totals 80,000. Machinery manufacturing in June accounts for 43,900 Hoosier jobs, 400 more than May.

Construction employment totals 143,800 an increase of 3,000 from last month. Of that, heavy construction reports 18,500 jobs, an increase of 600 from last year.

Service producing employment totals 2,125,000 in June, 19,500 less than last year. Transportation and public utilities total 117,300, 2,100 less than May.

(over)

Retail trade totals 341,800, 1,200 less than a year ago. Of that, general merchandise stores report employment of 74,800, or 1,300 less than last year.

Indiana's estimated labor force (the number of people 16 years of age and older who are able and available for work) totals 3,237,600 in June 2003. An estimated 3,088,200 Hoosiers are employed and 149,400 are unemployed.

Indiana's labor force for June 2002 totaled 3,209,000. Hoosiers employed one year ago is estimated at 3,046,200 and June 2002 unemployed in Indiana totaled 162,800. Indiana's estimated unemployment rate one year ago was 5.1 percent, compared with the national unemployment rate of 6.0 percent in June 2002.*

Industry Payroll Employment

| Selected Categories | June 2003 | Change from May 2003 | Change from June 2002 |
|---------------------|-----------|----------------------|-----------------------|
| Goods Producing | 733,400 | +6,400 | -20,900 |
| •Construction | 143,800 | +3,000 | -8,300 |
| •Manufacturing | 582,300 | +3,300 | -12,600 |
| Service Producing | 2,125,000 | -38,300 | -19,500 |
| •Retail Trade | 341,800 | +2,700 | -1,200 |

*Due to an expansion in the Current Population Survey (CPS), mandated by Congress, estimates for June 2001 (revised) and later at both the state and substate levels may not be fully comparable with those of earlier periods. In analyzing data, be aware that over-the-year comparisons, may differ slightly from comparisons that would have been made using data without the sample expansion. More detailed information can be found at <http://stats.bls.gov/launews1.htm>.

Indiana vs. U.S. Unemployment Rates June 2003
